17.20	<table border="0" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> Greca & Harrington An acoustic analysis of metaphony in the dialects of the Lausberg area (Southern Italy) </td> <td style="width: 50%; vertical-align: top;"> Trouvain A review of forms and functions of breath noises in speech communication </td> </tr> </table>	Greca & Harrington An acoustic analysis of metaphony in the dialects of the Lausberg area (Southern Italy)	Trouvain A review of forms and functions of breath noises in speech communication
Greca & Harrington An acoustic analysis of metaphony in the dialects of the Lausberg area (Southern Italy)	Trouvain A review of forms and functions of breath noises in speech communication		
17.45	Reorganization break		
18.00	Conference dinner		

Friday, 27th		
9.00	Zee Morphological effects on the acoustics of Dutch /s/	Schubö & Zerbian The domain of pre-boundary lengthening in German
9.25	Puggaard, Grijzenhout & Botma The acoustics of phonological contrast: Fortis and lenis stops in Danish and Dutch	Garassino, Schmid, Dipino, Hanekamp & Cangemi Quantifying pragmatic and prosodic correlates of narrative complexity
9.50	Poster session 2 + Coffee break	
11.30	Zimmermann Feet can be different: Gradient activity and morphologically distinct templates	Hansen-Morath, Raffelsiefen & Geumann The Vokalopposition in German: how do low vowels fit in?
11.55	Jabeen Recursive intonational phrases in Urdu/Hindi	Rummel, Jannedy & Nimz Vowels in Hood German: A phonetic analysis of vowel quality and quantity
12.20	Cronenberg Modelling an ongoing sound change in the East Franconian dialect by means of an agent-based model (ABM)	Kügler An acoustic analysis of Akan vowel harmony
12.45	Lunch break	
14.15	Arnold & Brackhane Does the segmental realization of ja vary depending on the pragmatic function?	Hartmann & Tomaschek Sound change in German verbs – effects of paradigmatic and lexical confusability
14.40	Pagel, Roessig & Mücke Prosodic strengthening in German: an investigation of tongue body kinematics	Engemann, Plag & Zimmermann Morphological boundaries and stem duration in English: Replicating experimental results with corpus data
15.05	Business Meeting	
15.30	Coffee break	
16.00	Wehrle Distribution and prosodic realisation of backchannels in L1 and L2 German	Blohm, Franz & Kentner Cross-domain effects in intuitive sentence judgements
16.25	Grimm, Cristante & Hübner Vowel perception in Turkish-German child L2 learners: How do they differ from monolingual German children?	Plag, Ben Hedia, Lohmann & Zimmermann What is the difference between boys and boys'? The phonetics of plural vs. genitive-plural in English
16.50	Keynote: Caroline Féry The role of phonology in evolution of language	
17.50	Farewell	

Postersession 1, Thursday, 26th, 14.50-16.30

Room 24.21.U1.21/24

Manzoni	Luxembourgish intonation: the example of continuation patterns
Braun	Politics and phonetics – why the sound spectrograph was developed
von Kries	VOT differences between German IDS and ADS
Sbranna, Grice & Cangemi	Towards quantifying conversational competence in second language learning
Horn, Rinke & Flores	Dialectal variation in European Portuguese central vowel perception
Weiland, Bäumlner, Burkard & Pustka	Spanish gemination: A corpus phonological survey
Geumann, Raffelsiefen & Hansen-Morath	Wortphonologie in Grammis
Brackhane & Zeschel	<wie gesagt>: wie gesagt? Phonetische Spezialisierungseffekte in festen Formeln
Franz, Kegel, Vasilieva, Rothbart & Knoop	Manual zur Rhythmuskodierung von Prosatexten
Arnold & Fisseni	Open Science with restricted domain resources?
Wolfswinkler	Characteristics of the West-Central-Bavarian vowel system – a comparison between adults and children
Franzke, Wolfswinkler & Harrington	Gender-based studies on the spoken language of children
James & Braun	A comprehensive comparison of native and non-native focus marking: the case of German L2-learners of English
Heisenberger, Jansen & Pustka	[ʒəsʏzotɔʁɪjɛn ilɛotɔʁɪjɛ] Pseudo-orality in Austrian learner French
Gabriel, Grünke & Karsten	Global speech rhythm and intonation in French as a foreign: Comparing bilingual Turkish-German and monolingual German learners
Gonzalez Machorro & Gibson	Detecting emotions in speech: a cross linguistic study using masked affective priming
Raveh, Möbius, Gessinger & Steiner	Analyzing phonetic accommodation in human-human and human-computer interactions
Leykum	F0 contour in ironic and literal utterances in Standard Austrian German
Pöchtrager	The Great Divide <i>cancelled</i>
Neamane	The syllabification of geminate consonants in Moroccan Arabic: Theoretical and typological implications <i>cancelled</i>
Wottawa & Adda-Decker	German [u] vs [ʊ]: checking automatic labelling using various formant measures
Huttenlauch, de Beer, Hanne & Wartenburger	Production of prosodic cues in coordinate name sequences addressing varying interlocutors
Golston	Translaryngeal harmony in Yokuts

Postersession 2, Friday, 27th, 9.50-11.30

Room 24.21.U1.21/24

Hopperdietzel & Klingler	On the prosodic integration of serial verb constructions – A phonetic analysis
Makasso	Bantu reflexes in the phonological integration of English words in Camfranglais, an urban youth spoken language in Cameroon
Burkard	A new bilingual corpus for Catalan and Spanish: A first analysis of Balearic dissimilation
Karsten, Gabriel, Grünke & Nagels	Vowel raising in Olivenza Spanish and Portuguese
Gessinger, Möbius, Andreeva, Raveh & Steiner	Wo hat sich der Hase versteckt? Accommodation in a Wizard-of-Oz-Experiment
Xing	/R/-ticulation in Mandarin
Frank, Muhlack, Zebe & Scharinger	Pitch, formants and formant differences are decisive factors in vowel processing – electrophysiological evidence from N1 amplitude and latency analyses
Feindt	Phonological development and bilingualism – The acquisition of English velar nasals
Stahnke	Prosodic influence in bilingual language acquisition
Geumann	Do Germans use larger vowel spaces than English speakers?
Bäumler	[ˈpaiβlain] or [ˈpipeline]: Phonological integration of anglicisms in the speech of Latin American and Spanish immigrants in Vienna
Mujezinovic	Reciprocal transfer effects of suprasegmental features of first and second language examined through Serbo-Croatian pitch accent in heritage speakers
Kamran	Spectrographic analysis of word structures and lexical stress correlates in Pakistani English
Brandt, Simpson & Sulaberidze	Measuring ejectives
Rimpler, Zahner & Braun	Compression of falls in L1 Greek productions of statements and polar questions: possibilities for future research on L2 German prosody
Serbac	The acquisition of the Romanian word azi ‘today’ by German learners
Osawa, Arai & Kitahara	Distinction between Japanese singleton and geminate consonants in reverberation by native Chinese listeners
Jackl	Influence of acoustic phenomena on the success rate of automatic speech recognition
Aldaihani	Assimilation in Harmonic Serialism (HS-OT)
Tavano & Muralikrishnan	Native speech as a sensory filter
Riccabona	The alignment of peaks and “elbows” in Tyrolean dialects <i>cancelled</i>
